

# Gumbies

AUTUMN WINTER CATALOGUE 2024/5

CHOOSE YOUR STYLE & START YOUR JOURNEY

## WHO WE ARE

Founded by Michel Maurer, Gumbies is a brand that embodies freedom, adventure, and the pursuit of a life unconstrained by four walls. Inspired by his discovery of the Aboriginal rite of passage, "Walkabout," Michel's experiences in Australia fueled his unique perspective on life and set the stage for his future career.

Michel's inherent desire for creativity and nonconformity led him on a journey of entrepreneurialism and self-employment. With nothing more than a backpack, some saved coins, and a head full of dreams, he ventured out into the world, finding work that fueled his passion for creativity. It was during his time working at an outdoor exhibition in Salt Lake City, USA, that he stumbled upon an article about renowned boot maker John Lobb. Lobb's story of struggle, success, and innovation resonated deeply with Michel and sparked the idea of creating a brand that encapsulated his way of life.

Drawing inspiration from simplicity, necessity, and, above all, freedom, Michel set out to develop a line of products that reflected his values. The quest for the perfect flip-flop began. Starting with prototypes made from old car tires, Michel soon realized that recycled rubber offered a more viable and environmentally friendly alternative. By bonding it with jute for strength and incorporating an EVA midsole for comfort, he crafted the 'Islander' flip flop, also known as the 1000-miler. To add a natural touch to the skin, canvas was used, while vibrant and contemporary colors gave each pair its unique character and story.

Gumbies stands as a testament to Michel's unwavering commitment to ethical practices and his vision of a brand that embodies the spirit of adventure and individuality. With every step, Gumbies invites you to express your beliefs and embrace a world of boundless possibilities.

# OUTBACK SLIPPERS

Material Highlights

# OUTBACK SLIPPERS

At Gumbies™, we're enthusiastic about getting more from our downtime, a philosophy we applied directly to the Outback slipper. It does exactly what it says on the tin - takes you beyond the house and 'Outback', without compromising comfort or style.

# QUOKKA

Material Highlights

## QUOKKA SLIPPERS

Step into a world of exclusive style and comfort with our Quokka Slipper Boots. Just like the adorable Quokka, found only in a small corner of Australia, these slipper boots embody a charm that sets them apart from ordinary slippers. Whether you're lounging at home or braving chilly evenings, these slipper boots keep your feet snug and warm, just like the quokka's natural fur coat protects them from the elements.

Available in the UK & USA

Designs used for illustrative purposes only. Final designs may vary

# OUR MATERIALS

## Recycled Rubber

Utilizing recycled rubber in footwear not only promotes environmental sustainability by reducing waste and landfill usage but also offers enhanced durability and comfort, making it a win-win choice for both the planet and consumers.

## Recycled Plastic

Incorporating recycled plastic into flip-flop straps is a commendable practice as it helps mitigate plastic pollution, conserves valuable resources, and contributes to a cleaner and healthier environment without compromising on style or functionality.

## Plant Based Foam

Embracing plant-based foam in footwear not only reduces reliance on fossil fuels and minimizes carbon footprint but also ensures superior comfort and support, allowing individuals to make eco-conscious choices without sacrificing performance or style.

## Natural Fibers

Using jute in the soles of footwear is a sustainable and biodegradable alternative to synthetic materials, promoting eco-friendly practices, while offering excellent strength, durability, and natural breathability for enhanced foot comfort.

## Recycled Textile

Utilizing recycled textiles in the straps of flip-flops brings multiple benefits by reducing waste, conserving resources, and supporting a circular economy, all while delivering stylish and comfortable footwear options that align with sustainable fashion choices.

## Natural Cork

Using cork not only provides natural cushioning and support for the feet but also promotes sustainable forestry practices, as cork is harvested from renewable sources without harming the trees, making it a responsible and eco-friendly material choice.
